

## Woodland Garden

This garden featuring shade loving native plants will support pollinators and butterflies.

8 ft by 14 ft garden, 112 sq feet (planted 18" center)

Shade-Part Shade (Note north side gardens can be very difficult; many shade loving natives are fine with some part sun in the spring but then prefer the dappled light give by trees; shade thrown by a building can be difficult).

### Plant list:

5—Christmas Ferns (\$50)

3—Jacob's Ladder(\$15)

8—Curly Sedge (\$40)

4—Virginia Waterleaf (\$20)

4—Wild Columbine (\$20)

3—Starry Campion (\$15)

3—Virginia Bluebells (\$15)

Total plants: 30; \$175
